

Helpful Websites for the iPad and Students who are Blind

Created by: Marsha Bork and Faye Gonzalez
March 2012

These are web sites that we have used in learning how to use the iPad with our students who are blind and have minimal or no other disabilities. Some of them are general websites for the iPad itself, and others are specific to using it if you are blind or visually impaired.

iPad: Accessibility for Vision – General information about VoiceOver
<http://www.apple.com/accessibility/ipad/vision.html>

iPad Apple Help for VoiceOver
<http://help.apple.com/ipad/5/voiceover/en/>

List of Supported Braille Displays for iOS5.0
<http://www.apple.com/accessibility/iphone/braille-display.html>

Adaptive technology related POD casts, files, and links - iPad Demos
