## **Monday, March 23**

Problem Solving Skills with Chris Tabb, Maryland School for the Blind

- Provide students with strategies for problem solving; this will include use of environmental information, technology
- For Academic and Functional Academic level students from elementary through high school

## **Tuesday, March 24**

Do I Detect Sarcasm? (Part 1) with Robbin Keating-Clark, Utah Schools for the Deaf and Blind

- Students will learn to define and identify sarcasm
- For Upper elementary, middle & high school; moderate & typically developing student ability level

## **Wednesday, March 25**

Fun at Home Yoga and Movement Activities with Kassy Maloney, COMS

- Students of any age or ability level welcome!
- Bring towel, carpet, or yoga mat

## **Thursday, March 26**

Do I Detect Sarcasm? (Part 2) with Robbin Keating-Clark – *see Tuesday's description*

## **Friday, March 27**

I'm a Scientist and I Didn't Even Know It!! Mystery Box Observations with Jeff Killebrew, New Mexico School for the Blind

- K-12
- Materials Needed: One box, or several boxes - any size will do but the box does need to have the ability to be sealed to prevent accessing the interior of the box. In addition, any common household item(s) that can fit into the box: balls, marbles, paperclips, fork, pencil, pen, whatever is laying around will do, along with any materials needed to construct internal compartments in the box (cardboard, construction paper, tape, glue, etc.) The more creative the better!
