**Printed Versions: Amazon
\$21.99 each**

**Kindle Versions: Amazon - If Available
\$7.99 each**

**Downloadable eBooks: www.achievemilestones.com
\$4.99 each**

I hope your child enjoys any variety of the books I have written. Your special child is my inspiration.

It is my goal to create awareness for various types of conditions and diseases, not just the visually impaired. Except for book sales, all the profit from products on my website, www.achievemilestones.com, is donated to charities specific to the condition or disease the product's sponsor.

My child is alive because of generous donors to foundations like CureSMA. A drug that stopped the progression of my daughter's disease was FDA approved just days before her birth. I had a prayer answered before I even knew I needed a miracle. My greatest desire is for your child's condition or disease to have a cure like mine did. I am doing this by giving to foundations whose sole purpose is this.

**My best to your child's success,
Erin Fulks**
