

How to choose an appropriate storybook APP:

Areas to consider: Once you point out these areas, people have much greater success in matching the book APP to the child

- Visual clarity (a lack of visual busyness)
- Placement of print (in same place on each page?)
- Print clarity / background (contrast) – the space behind the print should not have any drawings or pictures or movement
- Brightness of image
- Size of Font (is it changeable?)
- Type of Font – not too busy
- Upper case and lower case letters used properly
- Can the printed word, when read by the iPad be highlighted (if needed at the child's current level)

Aspects of _____ APP:

Strengths:

Weaknesses:

Potential skill sets that could be developed:

(e.g. vocabulary development, spelling, concept building, imagination, life skills discussion, social skills development, prediction, fine motor skills, visual skills, repetition of current areas of development)

Worth it?
