

Webinar: Strategies for Building Math Vocabulary for Students who are Blind or Have Low Vision

Presenters: Dr. Tina S. Herzberg and Dr. L. Penny Rosenblum

Description: Students who are blind and low vision, including students who are multilingual learners, students who are deafblind, and students who have additional disabilities, may miss opportunities to fully understand terminology and vocabulary used in math learning. TSVIs, math teachers, other educational team members, and families can support students in increasing their vocabulary and conceptual knowledge. Come learn strategies that you can use immediately with your students or child. There will be time for you to share ideas you have found helpful.

Date and Time: Tuesday, April 22, 2025 from 4-5 PM Eastern / 1-2 PM Pacific
