

## **FILLING YOUR**

## **TRANSPORTATION TOOLBOX**

### **Examples of Wall Posts from 2025 FYTT Program**

Examples of wall posts travelers wrote about themselves include:

- I successfully crossed a road in Aiken.
- I used Aira to find items in a store.
- I'm proud of myself because of everything I did yesterday with Walmart shopping, but more importantly the cooking. It really shows me that if I can find the accessible tools I need, then I can cook some awesome things!
- I'm proud of myself for riding the elevator completely alone yesterday. I pressed each and every button and did it all by myself when I was coming downstairs.
- I crossed 6 streets using just the listening in Aiken.
- I shopped at Walmart independently!

Examples of wall posts travelers wrote about each other.

- \_\_\_\_ did really good with navigating and helping to find out where we go.
- I'm impressed with \_\_\_\_ for really stepping up and assisting others. He often acts like he's in a position of leadership, but never in a negative way. He's always offering to help others, guiding them when they need help knowing which directions to go in public places. It's really helpful to have him around people.

- \_\_\_\_ has good humor and is a good friend.

Examples of wall posts staff wrote about travelers include:

- \_\_\_\_ correctly identified a safe time to cross two streets. She used her phone's magnifier and the information from the apps [to aid her during travel].
- \_\_\_\_ and \_\_\_\_ did a great job of role playing what information to share with drivers.
- \_\_\_\_ asked a lot of great questions to get information about assistance options available at an airport. She used her tools to find gate 9.
- \_\_\_\_, \_\_\_\_, and \_\_\_\_ independently paid the bus fare, located an open seat, and determined when to get off the bus at the mall.
- \_\_\_\_ was amazing at TSA when he had to go through a secondary screening and a stranger (TSA agent) patted him down.
- \_\_\_\_ was a leader in using the paper map during the scavenger hunt and figuring out answers to the clues.
- \_\_\_\_ and \_\_\_\_ used multiple strategies (Seeing AI, Be My Eyes, take a picture and magnify, and seek assistance from university employees) to find a specific person's office!
